**Subject:** New procedure for checking in with work plans (week of Monday, October 19th)

Good morning Jean!

I am planning to telework this week. My primary tasks for the week are to ensure the letter for the FEIS for the Point Reyes National Seashore General Management Plan Amendment gets out Monday, continue my review of the interagency review for ESA consultation for the Corps/NOAA, and continue my review of the FEIS for the East San Fernando Valley Transit Corridor Project.

Besides my team meetings, I have the All Hands Meeting on Reopening and an OPA Communications call on Monday morning, the TIP Division Managers' Meeting on Tuesday morning, two calls for the Plains Pipeline on Wednesday morning (one regularly scheduled cooperating agency call and the other a discussion of the LEDPA alternatives with the Corps and BLM), and the OPA Communications Meeting on Thursday morning.

Thank you,  
Jason
